*Editorial***Greetings and good wishes!**

The IMA FOCUS is a glimpse of your educational programs, service projects and humanitarian acts to society. I am pleased to share with you, that it is almost one year since the IMA Focus has gone digital. Ralph Lombreglia quotes "The proper artistic response to digital technology is to embrace it as a new window on everything that's eternally human, and to use it with passion, wisdom, fearlessness and joy." Walk the extra mile and promote digital literacy among our fellow doctors.

March is a month of several festivals like Holi, Gudipadwa (Ugadi), International Women's Week, World Water Day, World Forest Day, World TB Day, Measles Immunisation Day and so on..

International Women's week is celebrated during the first week in March, beginning on the first Saturday and surrounds International Women's Day which is always March 8th. It is a week of celebration, education and awareness surrounding women's gender issues. Women's week focuses on five pillars: Building relationships, self knowledge, sexual assault & international violence, healthy self image and leadership development.

In 1908, the Socialist Party of American organized a day to protest women's working conditions. The first National Woman's Day was made official in the United States on February 28, 1909. It was later moved to March 8th and renamed International Women's Day. Then in the 1980s, It was expanded to include a full week of activities during the first week of March including International Women's Day.

International Women's Day 2020 theme – "I am Generation Equality: Realizing Women's Rights"

The emerging global consensus is that despite some progress, real change has been agonizingly slow for the majority of women

and girls in the world. Today, not a single country can claim to have achieved gender equality. Multiple obstacles remain unchanged in law and in culture. Women and girls continue to be undervalued; they work more and earn less and have fewer choices; and experience multiple forms of violence at home and in public places. The year 2020 represents an unmissable opportunity to mobilise global action to achieve gender equality and human rights of all women and girls.

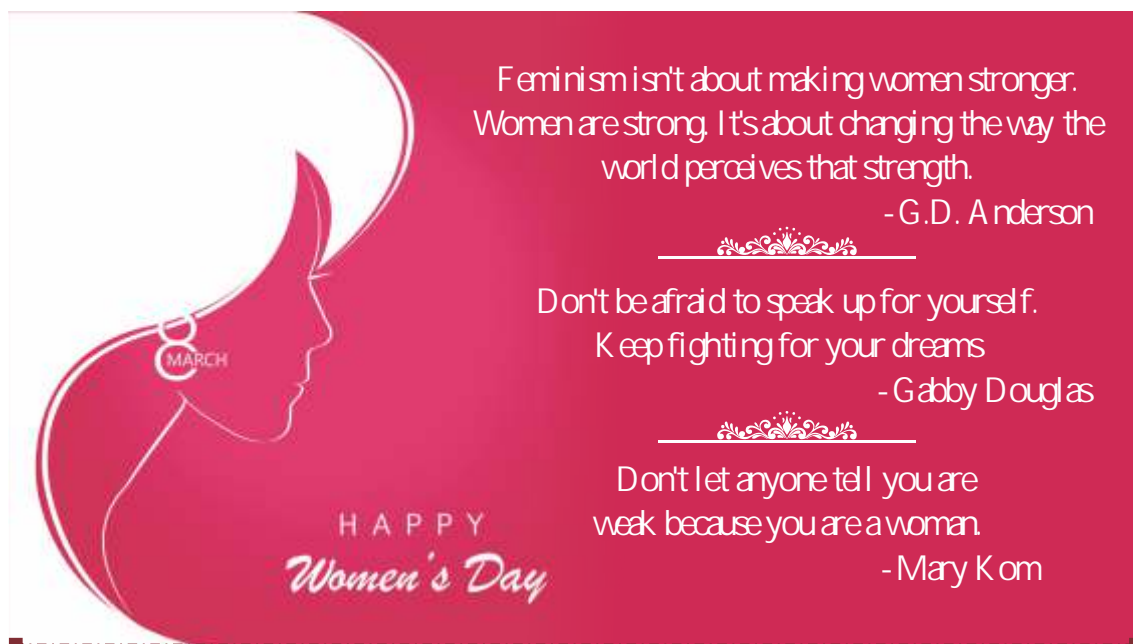

Measles Immunisation Day is celebrated every year on 16th March to make people aware of this deadly disease and how they can deal with the same. World TB day is observed every year on 24th March to build public awareness about the global epidemic and efforts to eliminate the disease. The date marks the day in 1882 when Dr Robert Koch discovered the Causative bacterium which opened the way towards diagnosing and curing this disease.

The World TB Day 2020 theme – “It's Time...” - puts the accent on the urgency to act on the commitments made by global leaders to ensure no one is left behind.

Before I conclude, I would like to wish a very happy Women's Day to all my Fellow colleagues without whom the world would have been incomplete! As always, we look forward to your valuable inputs. Wishing you and your families a wonderful Holi & prosperous Ugadi!

Long live IMA.

- Dr Anita N Rao

President's Message

Dear esteemed members,

"The raw mangoes, neem and jaggery represent the sweet, sour and bitter flavors of life.

May the flavors of Ugadi fill your life in the coming year! Happy ugadi to all of you."

The State working committee along with Finance, Building, Land procuring, KPPS committee meetings were held at IMA Baengaluru on 16-20-2020. The discussions and resolutions were meaningful. I take this opportunity to appreciate the building committee which has brought in lots of improvements in the IMA Guest house starting from painting to installation of AC in the 6 rooms of the third floor.

In the SWC meeting it was decided to inform all the local branches to form Local IMA KPME Committees to felicitate the members of IMA for their establishments registration and renewal in the coming days. The committee is also expected to study the KPME act in detail. The details of the structural framework of the committee formation will be intimated later.

Visited the IMA Nelamangala branch on 14th February along with KSHS Chairman Dr.V.V.Chinwalar.

Along with President elect Dr.Venkatachalapthy.M and Senior Vice President Dr.G.K.Bhat, our team KSB visited the Tumakur, Hiriyur, Chitradurga, Davanagere, Ranebennur, Haveri, Dharwad, Hubballi, Naragund, Navalagund, Ron branches on 29th February and 1st March.

The deliberations and discussions on the various issues and also on the local problems were fruitful. During the visits a CD containing the PPTs of IMA KPPS, KSSSS, KSHS, Local Byelaws, Acts on violence on Doctors along with SOP 1018 and many more details were handed over to the branch. It also contains the respective member's list of that branch. We request you to update this list with the member's KMC number, Mobile number and mail id and send us back for future easy communication.

We appreciate the of Chairman Harassment Committee Dr.Ganeshprasad Mudraje for his swift action, communication and guiding the affected doctor of Yadagiri district and also guiding the IMA Yadgiri at the time of distress.

Long Live IMA

- Dr. Madhusudana Kariganur

Secretary's Desk

Dear IMA members

Wishing all our IMA members and family members happy Ugadi.

Dear members again atrocities against doctors happened in Tumkur and Yadgiri last month, I feel we should be very careful, have to follow all SOP'S, all local branches should arrange Medico legal workshops, should make everyone wellworsed with all Medico legal problems.

Everyone should document complete history with written consent for every procedures, every local branch should have whatsapp group with communication with police.

Only solution is Documentation, Honesty, regularity, unity, Accountability, should be master in Medicolegal quires.

All our dear friends know about Media impact now, each and every patient will have smart phones, can record whole event in any given time and forward to the press,

Communication is very important after seeing any patient you should clearly explain what you are suspecting and what treatment you are giving, what are the adverse effects you expect from your treatment, everything you should convey to your patients without hesitation, please be frank. My sincere request to all my dear friends to limit the practice, you can charge consultation charges more and spend more time for the patients and definitely this method helps in all aspects. We ourselves should change in accordance with the time and the society. Just compare olden practitioners with the new generation doctors you will have the clear cut idea.

Dear friends we will have very fantastic three schemes IMA-KSSS, IMA-KPPS, IMA-KSHS, it will be a boon for every IMA member in our state, it's because of great work done by IMA-KSSS Management committee especially chairman Dr Y.C.Yogananda Reddy and previous secretary Dr Madhusudhan Kariganur, our senior IMA member,

CWC member Dr Suresh Kuduva questioned IAP FBS office bearers about benefits, definitely it's not comparable at all, they are spending lot of money for administration expenses and elections, I am really shocked to see that main concept of joining FBS is to get some thing for the family after members death, we have to reduce administrative expenses as well as election expenses. this message clearly told by Dr Suresh kudva I have to solute him, at the same time I have to salute Dr.Y.C.Yogananda Reddy for his great work.

I request each and every member to enroll to IMA-KSSS and allow your family members to get the wonderful benefit.

IMA-KPPS also becoming very lucrative now under the leader ship of Dr. Honnegowda, definitely he will do wonders, I request all our dear members to utilise the benefits, at the same time we cannot forget the great work done by Dr.D. Somasekaraiah, his contributions to the IMA-KSB and IMA-KPPS is unmeasurable.

Everyone is aware about IMA-KSHS, you just compare this scheme with other Medclaim and Insurance policies, you will get the clear picture of advantages, I should congratulate Dr. V.V.Chinivalar, Chairman, IMA-KSHS for his great work.

Dear friends you might have seen new CD's with most of the requirements to the local branches it's actually our president's innovation, really it's wonderful idea it's my duty to congratulate him for the noble thought. Let all of us work for the welfare of our Noble profession and IMA.

Jai Hind. Jai IMA.

DOD - 25-01-2020

Senior Vice President's Desk

Dear IMA Members,

My warm greetings and best wishes to all of you. At the outset I thank the Governor, Government of Karnataka and the concerned persons and IMA members for appointing me as the Karnataka Medical Council member on 22.01.2020. I will definitely work for the welfare of doctors' fraternity.

Regarding IMA activities I attended the CME on "Medico Legal cases" held at Bengaluru Govt. Medical college on 08.12.2019. Nearly 250 people attended the event. On 14.12.2019, BGS Global Hospital Bengaluru in association with IMA Mangaluru Branch conducted CME on "Transplantation of Kidney & Liver". On 18.12.2019 I was the chief guest at IMA meeting of Bantwal branch.

On 27th & 28th December I attended the 'NATCON' conference held at Kolkata where more than 750 doctors from all over India were present.

On 02.01.2020, I visited Udupi IMA branch with our State president Dr. Madusudhana Kariganur. On 16.01.2020, I was the chief guest for 'Sports day' conducted by Mangala group of institutions of Mangaluru held at Mangala stadium. On 19.01.2020 I was the guest for Health awareness programme held at Dr. Kulal's Clinic premises. During Republic day function on 26.01.2020 I was the chief guest at Omega Hospital Mangaluru. On 29.01.2020 I was the Presiding officer for Navaloka Media news inaugural function held at Don Bosco Hall Mangaluru.

On 09.02. 2020, President and members of IMA Sullia felicitated me for being nominated as KMC member. I am highly thankful to them for their kind gesture. On 16.02.2020 I attended the CWC meeting of our State IMA held at Bengaluru.

Jai Hind.

- Dr. G. K. Bhat Sankabithilu

Diversity ... Thy name is Woman!

When God created woman, he created her to be his equal, to be by his side and to lead a life happy, for both of them. But what went wrong? Where did the inequality begin? Who has to be blamed for the current situation?

I would put the whole blame on the plough!! Sounds ridiculous, isn't it? Yes, it is indeed very true! The woman who was with the man, very much by his side, chose to stay at home and nurture the children, restricting herself to household chores when man adapted to staying outdoors, to plough and grow food. It is this moment of time that the woman accepted herself to be weak and wanted to choose a lesser and lighter work for herself. Slowly she was considered to be only a home maker and not a bread winner, nor a decision maker. At this point, you would not agree with me and say that child bearing was not an easy task either. I would acquiesce, that this is an irreplaceable virtue of a woman and she is privileged to carry the weight of this responsibility very proudly and gracefully.

As the years passed and the work of the society got divided, the woman slowly took a back seat watching and tolerating the change for which she herself had given in without any struggle. Further, her role was assigned within the four walls. With religious customs and beliefs, she became subservient, she moulded to be a subordinate. She built her own comfort zone and found it difficult to evacuate from the stressful situation around her.

Though most women adapted this as a norm, to some, this submission was not acceptable. The struggle for individuality, the struggle for freedom, began. Slowly it became a movement and from getting a right to vote to submission of a candidature for ruling, her fight intensified. She emerged victorious, though it took a participation of a few generations and a couple of centuries!!

As more and more women are getting into the work force and become the bread winners, the family has started to suffer. The new born and its childhood have taken a back seat. While delay in pregnancies cause infertility and anxiousness, inability to give adequate time to each other have led to matrimonial disharmony. As the woman has adapted herself to a competitive world, it is not vice versa. Her presence is not acceptable. Many a times her ambitions are considered to be self-centred. When it comes to giving up on work it is a rule that it would be the woman who has to step down.

Discussing these situations is what everyone does. I would like to ponder on certain probable solutions to get a woman fulfil her desires both in her career and as a homemaker.

Girls are taught to excel in their classes. While volumes are discussed on their subjects nobody deals with what and how she would do when she has to make a choice between family and her career. When she gets into marriage and child bearing, (which unfortunately coincides with stepping into a career), her comeback is accompanied by a loss of years, and a loss of experience too. While the male counterpart in her school and college, during this time would have leaped ahead, she feels that she has missed on something important. Her chances

for a job and her passion, become meek. The first question is “What did you do all these years”? She has no words to answer! It is time that the society understands that her precious years have been utilised to fulfil nature's duty. There should be a system where her comeback is welcomed and encouraged. Some amount of training must be arranged to see that she gets the required skill to continue what she loved to do most. She may have started late, give her a chance to be what she wants to be. After all there is only one life and a woman has to play so many roles!

Maternity leave and the provisions for the woman who has to bear children must be understood and followed by all. Places for breast feeding must be reserved. The children of women at the workplace must have care takers so that they are not neglected. Indeed, raising children in the right way is the responsibility of the society too.

A society should protect the women from crime like rape, acid attacks and so on. This cannot happen overnight. The male children should learn to respect their mothers, sisters and the female school mates. They should be made to do household chores and understand that work wherever and whatever, must be shared. Impartiality in raising both the sexes would probably go a long way in changing their mindset.

Women empowerment is what we all talk about. There are many successful women who feel that they do not require to be segregated in groups like a women's wing etc, etc. These are the women who have been lucky enough to reach the top, with their share of struggle, of course. With these wings they must identify themselves so that those who enter the scene later will not have to face the same difficulties and thus could contribute immensely during their tenure. In other words, 'Mentorship' is the word used to describe their role. They will be lending their wings for those who do not have a pair, till they develop their own!

Having accepted our place in society it is important that we respect our biology too. Freedom is not synonymous with wearing revealing clothes, drug addiction, alcohol intake and late-night parties. They are not good for anybody for that matter. She puts herself into unsafe situations, for which she may have to pay a heavy price. Dignity and divinity are the ornaments of a woman, and she always wears them with grace. She must be admired for what she is. She may be a home maker or an entrepreneur, she deserves an applause for the innumerable sacrifices she makes during her journey of life.

On this women's day, I would like to wish you all the very best. I would also like to take this opportunity to request you all to be supportive and sympathetic towards all the women around you, may it be your maid or even the one who would have just joined as a fresher in your institution. Encouragement is the key to the success of women empowerment. Together we can and we will!

Finally, as commonly said, “Strong women aren't simply born. They are forged through the challenges of life. With each challenge they grow, mentally and emotionally. They move forward with their head held high and strength that cannot be denied. They are women who have been through the storm and survived, they are warriors”! Let us be these strong women and help each other to be what we dreamt to be!

Wishing you all a “Happy International Women's Day”

- Dr Naaz Jahan Shaikh

BRANCH ACTIVITIES

Branch: Baglkot**President: Dr.B.K.Bhavi****Secretary: Dr.Sujaya Heranjal**

ಪ್ಲಾಸ್ಟಿಕ್ ತ್ಯಜಿಸಿ - ಪರಿಸರ ಉಳಿಸಿ

ಭಾರತೀಯ ವೈದ್ಯಕೀಯ ಸಂಘದ ಪ್ರಾರ್ಥನೆ

ಎಲ್ಲರೂ ಸಂತೋಷವಾಗಿರಲಿ,
 ಎಲ್ಲರೂ ಆರೋಗ್ಯವಾಗಿರಲಿ,
 ಎಲ್ಲರೂ ನೋವಿನಿಂದ ಮುಕ್ತವಾಗಿರಲಿ,
 ಎಲ್ಲರೂ ದುಃಖದಿಂದ ಮುಕ್ತವಾಗಿರಲಿ,
 ಎಲ್ಲಾ ಆಸೆ ಆಮಿಷಗಳನ್ನು ಮೀರಿ
 ಗುಣಪಡಿಸುವವರು ನಾವಾಗಿರಲಿ.

IMA PRAYER

May everybody be happy
 May everybody be healthy
 May everybody be free from pain
 May everybody be free from sorrow
 May we be the healing cure
 Beyond every greed & lure

FLAG SALUTATION

We, the members of Indian Medical Association stand here
 to salute our national flag.

Its honour and glory shall be our light and strength
 and its course shall be our course.

We pledge our allegiance to it and realizing our responsibilities as the
 accredited members of this national organization, we swear
 we will dedicate everything in our power to see
 it fly high in the comity of nations.

Jai Hind !

Long Live IMA!
