The activity was held at the busy City Centre Circle, Vallabhbhai Patel Chowk, a key traffic junction with significant public movement. During the program, doctors from IMA Kalaburagi and police officials jointly interacted with two-wheeler riders, especially those travelling without helmets. The team educated the public about the serious risks of head injuries, which are one of the leading causes of death and disability in road traffic

accidents. Emphasis was placed on how wearing a helmet significantly reduces the risk of severe brain injury, long-term neurological complications, and mortality.

Riders without helmets were politely stopped, counselled, and made aware of the life-saving importance of protective headgear. Report of Hospital Board of Karnataka (HBK) Sub-Committee: Chairman: Dr.Pavankumar N. Patil

It is with a sense of responsibility and collective achievement that I present this report on behalf of the Hospital Board Sub-committee of the Indian Medical Association, Karnataka State Branch (IMA KSB). Over the past tenure, the committee has undertaken multiple initiatives aimed at addressing systemic challenges faced by healthcare institutions, particularly small and medium hospitals, while maintaining continuous engagement with regulatory authorities and policymakers.

At the outset, I extend my sincere gratitude to the President and Honorary Secretary of IMA KSB for their unwavering support, guidance, and encouragement in all the activities undertaken by the Hospital Board Subcommittee. Their leadership has ensured that the committee functioned with clarity of purpose and administrative strength. The collaborative approach adopted by the state leadership has been instrumental in translating discussions into actionable outcomes.

One of the most significant achievements during this period has been the resolution of longstanding fire safety compliance issues faced by hospitals across Karnataka. For nearly four years, this issue posed operational and regulatory challenges, particularly for small and medium establishments functioning in rented or multi-storeyed premises. The committee, along with IMA leadership, adopted a structured and sustained approach by conducting multiple meetings with concerned government officials, fire department authorities, and ministers. Continuous follow-up, documentation, and representation ensured that the issue remained active at policy levels. As a result of these coordinated efforts, simplification measures have now been announced, bringing much-needed clarity and relief to practitioners.

In this regard, I place on record our special appreciation for the proactive support extended by Dr.N.T.Srinivas, Kudalagi, MLA, and Dr Dananjay Sarji, MLC. Their timely intervention, including raising the matter within the legislative framework, significantly expedited the decision-making process. Their engagement reflects the importance of constructive collaboration between the medical fraternity and elected representatives in addressing public health infrastructure challenges.

Another critical area of intervention has been the recent amendments under the Karnataka Private Medical Establishments (KPMEA) Act. The committee undertook a detailed review of the amendments and identified several practical difficulties in implementation. These concerns were systematically highlighted through media engagement, professional forums, and direct communication with political representatives. The issue was also effectively raised in the Legislative Council by Sri Sankanur, MLC, thereby ensuring that the concerns of the medical community were formally recorded and brought to the attention of policymakers. This has created a foundation for further dialogue and possible corrective measures.

Recognizing the need for awareness and compliance, the committee also focused on capacity-building initiatives. Educational sessions and talks were delivered to update members on KPMEA rules

and regulations, ensuring that practitioners are well-informed about statutory requirements. Additionally, emphasis was laid on sensitizing members about legal provisions related to violence against healthcare professionals. These sessions were designed not only to educate but also to empower doctors with knowledge of their rights and responsibilities in an increasingly complex medico-legal environment.

The committee also acknowledges and appreciates the exemplary efforts of IMA Tumkur in hosting the national conference of the Hospital Board of India (HBI). The event was conducted on a grand scale, featuring participation from national-level speakers, policymakers, and healthcare leaders. Special recognition is extended to Dr Prabhakar for his leadership and vision, and to Dr Arjun for his dedicated efforts and organizational excellence. The conference was attended by the Hon'ble Home Minister and Health Minister of the state, both of whom appreciated the proactive role played by IMA Karnataka in maintaining a constructive and continuous dialogue with the government for the betterment of healthcare delivery systems. Such events not only enhance knowledge sharing but also strengthen the institutional credibility of IMA at both state and national levels.

Throughout the tenure, the committee has also addressed numerous queries and concerns raised by members across the state regarding KPMEA-related challenges. These ranged from licensing issues and compliance requirements to practical difficulties in day-to-day hospital operations. By providing timely guidance and facilitating communication with authorities, the committee has played a supportive role in easing regulatory burdens for practitioners.

Despite these achievements, several issues continue to require focused attention. One of the key areas currently being pursued is the set of challenges faced by small and medium hospitals in dealing with insurance companies. Issues such as non-uniform empanelment, delayed payments, non-medical decision-making during pre-authorizations, and outdated package rates have created operational and financial strain. This matter is being addressed at the national level, and I am actively involved as part of the team working towards policy-level reforms. The objective is to establish a more equitable and transparent system that supports both healthcare providers and patients.

In conclusion, the activities of the Hospital Board Subcommittee during this period reflect a balanced approach combining advocacy, education, and policy engagement. The progress achieved is the result of collective effort, institutional support, and sustained dialogue with stakeholders. However, the evolving healthcare landscape demands continued vigilance, adaptability, and proactive intervention.

The committee remains committed to addressing pending issues and advancing the interests of the medical fraternity while upholding the broader objective of improving patient care and healthcare delivery systems across Karnataka.

Report of Antiquackery Sub-Committee: Chairman: Dr.Sandeep Prabhu:

I have been continuing as the chairman of the Antiquackery subcommittee for the past 3 to 4 years and I am repeatedly repeating the same issue of non-formation of registration and grievance committee as per norms at every district.

In the absence of the registration and grievance committee in a proper format in most of the districts it becomes very difficult to prosecute the quacks who are raided and against whom a FIR has been registered.

In July the Karnataka High Court headed by the honourable Justice Naga Prasanna has passed a very severe judgment criticizing the quacks for endangering the lives of the public. On 26. 08.2025 the government of Karnataka has issued orders for the prosecution of the quacks and circulated it to the various departments including the mention of fines and imprisonment. But the entire effort fails to bear fruit in the absence of the registration and grievance committees.

I in my previous and the present in your have tried to communicate personally as well as through letters to various district IMA presidents to initiate the formation of the registration and grievance committee but the will and the determination to do so is severely lacking.

When IMA KSB communicates with the health and family welfare officers for the prosecution of the quacks they very clearly point out that in the absence of the registration and committee in various districts being non-functional they become helpless for the prosecution and forwarding of the cases to the various courts under the KPMEA act.

I would like to point out one instance where in I received a complaint from the President of IMA Bhatkal saying there was a clinic which was run by a Quack and illegally functioning and out complaint to the incharge of the KPMEA in Bangalore the files were verified and found to be authentic later on the THO of Bhatkal spoke to me saying that it was a matter of personal vendetta in which the President of IMA Bhatkal was harassing her and in spite of she raiding the premises repeatedly and finding no problem a personal problem became a headache for the IMA KSB.

The dermatology Association of India and its branch in Karnataka on receiving numerous complaints of abuse of antifungal creams leading to antifungal resistance as well as use of lasers in boutiques and other skin therapy centers without KPMEA and also by various doctors who have received formal training but not lasers was not included in the curriculum has approached the health and family welfare department and initiated a series of raids across Karnataka.

These raids on various dentist dermatologist Ayush Dermatologist beauty centers and slimming centers as well as hair transplant centers has eluded a lot of a lot of FIR being filed From IMA KSB can use this data and try to initiate prosecution of various quacks.

The Karnataka Medical Council under the chairmanship of our past president Dr Yogananda Reddy has also initiated steps and pressurize the government to bring about major changes in the KMC act which allows the registrar of the KMC to initiate so Motu proceedings against quacks on receipt of proper complaints.

We request all the members of IMA KSB to utilise this facility and form give a proper documented complaint to the Karnataka medical Council.

The health and family welfare in response to a letter from IMA KSB for proper demarcation of the Ayush and modern medicine clinics had initiated the display of prominent boards mentioning the speciality and the contact person and the KPMEA number so that the clinics can be examined even when the door is locked and identified whether they are registered or run by quacks but in my knowledge a very few districts have come out with where is stellar performance in doing this and others there is a total neglect of this.

I request IMA members to initiate this process of displaying the words prominently so that we can press for identification of the unregistered clinics and initiate proper action.

I in spite of sending repeated letters to the various IMA branches and the presidents to give information of quacks in any of the districts and in their notice have till today not received a single proper formatted complaint this saddens me and makes me feel whether this effort is worthwhile.

There have been instances where on prosecution and are legal clinics and PCPNDT the quacks being arrested and put in jail and on receipt of the bail being taken in procession in their place which again makes us feel whether the people do they deserve real proper qualified healthcare or are they more satisfied with the quacks.

This dilemma makes us wonder whether are we fighting for the survival of our profession and our juniors or are we fighting for the betterment of the public which we believe is gullible but are they gullible or are they smart I think only time can tell. I thank the department of health and family welfare for issuing a clear order in the manner to file cases and prosecute quacks under the guidance of Dr Vivek Dorai

With these words I wish to request and ask all the members present in this assembly to initiate the registration and grievance committee till then the efforts of the Antiquackery committee will not bear any fruits.

I thank our president Dr Veerabhadrappe our Hon. State Secretary Dr.Suriraju.V our treasurer and all the state working and Central working committee members as well as the vice president and all the members of Antiquackery who have been extremely cooperative and help me to do my work in my tenure

Report of Sub Committee on Prevention of Harassment on Doctors: Chairman: Dr.Prakash Harishchandra:

It is with a sense of deep responsibility and duty that I present this report on behalf of the Prevention of Harassment Board Subcommittee of the Indian Medical Association, Karnataka State Branch (IMA KSB).

At the outset, I extend my sincere gratitude to the President and Honorary Secretary of IMA KSB for their unwavering support, guidance, and encouragement in all the activities undertaken by the Harassment Subcommittee.

It's been a year of happiness for doctors as against the past that I say the incidences reports or that been communicated of being harassed was limited to a hand full incident. Which is probably due to the strong awareness among doctors' fraternity and the IMA-KSB structured approach in the past, present by repetitive trainings that such incidents were solved efficiently locally.

Except for once Incident in Kodagu, where a government doctor was involved, a Case was reported but handled well by the local organisation, a support letter was sent and communication with the affected doctor was done who was grateful to IMA-KSB for the support.

The problem of Anaesthetic opioids procurements by hospitals was addressed by the honourable Karnataka High Court providing clearly directions making it easier for hospitals to procure Opioids. The Order Copy was shared with the other branches to facilitate the same.

As by when the need arise personal Guidance on cases of likely harassment was avoided preventing flare ups. A Special Meeting with Dr Sandeep Prabhu was organised in Mangalore to Highlight the scope of KPME in the light of the regulatory requirements of KPME among doctors and the need oversee its smooth functioning.

The Need to submit Form 4 yearly . Here is a professional and structured draft for your annual report, incorporating the details you provided. It has been formatted to look formal, clean, and ready for submission to the IMA KSB President. INDIAN MEDICAL ASSOCIATION – KARNATAKA STATE BRANCH Prevention of Harassment Subcommittee Report Annual Report for the Year 2025–2026 To, The State President, Indian Medical Association, Karnataka State Branch (IMA KSB). Respected Sir, Subject: Submission of the Annual Report of the Prevention of Harassment Subcommittee. It is with a sense of deep responsibility and duty that I present this annual report on behalf of the Prevention of Harassment Board Subcommittee of the Indian Medical Association, Karnataka State Branch (IMA KSB), reflecting on our activities and the cases addressed over the past quarters. At the outset, I extend my sincere gratitude to the State President and the Honorary Secretary of IMA KSB for their unwavering support, guidance, and encouragement in all the activities undertaken by this subcommittee. Overview of the Year It brings great satisfaction to report that this year has been relatively peaceful for the medical fraternity. In contrast to previous years, the number of reported or communicated harassment incidents was limited to a mere handful. This positive trend is largely due to the strong awareness built within the doctors' fraternity, alongside IMA KSB's structured approach. Through repetitive training and proactive measures, most localized issues were efficiently resolved at the local branch level before escalating.

Key Interventions & Key Incidents Addressed
Kodagu District Incident: A case involving the harassment of a government doctor was reported from Kodagu. The situation was handled exceptionally well by the local IMA organization. The subcommittee intervened by sending an official support letter and maintaining constant communication with the affected doctor. The member expressed deep gratitude to IMA KSB for the timely and reassuring support.
Resolution of Opioid Procurement Issues: The long-standing issue faced by hospitals regarding the procurement of Anaesthetic Opioids was successfully addressed. The Honourable Karnataka High Court issued clear directives streamlining the process, making it significantly easier for hospitals to obtain these essential medications. To ensure all members benefited, the subcommittee shared copies of the court order across other branches to facilitate smooth implementation.

Proactive Personal Guidance: The subcommittee actively provided personal guidance to members facing potential conflicts. By offering timely counsel and intervening early, we successfully prevented minor grievances from flaring up into severe cases of harassment.
Special Meeting on KPME Regulations (Mangaluru): A special interactive meeting was organized in Mangaluru featuring Dr. Sandeep Prabhu. The session highlighted the scope of the Karnataka Private Medical Establishments (KPME) Act in light of evolving regulatory requirements. The discussion emphasized the need for doctors to oversee the smooth functioning of their clinics/hospitals while remaining fully compliant with the law.
KPME Form 4 Compliance: During the year, the committee strongly reinforced the mandatory requirement for all medical establishments to submit Form 4 annually to maintain proper regulatory standing and prevent legal harassment.

KPME Matters:

Regarding the Fire safety Norms and clearance required for KPME approval latest order copy has been repeatedly shared with specific hospitals, who required guidance to clear the fire safety norms and local clearance from Dysp Fire Dept.

Clinics were given clear guidance on the installation of specific fire fighting devices to be complaint on inspection by THO.

KPME Renewal:

The Auto Renewal process of KPME before expiry of KPME has been stressed upon to be used by independent clinics to prevent unnecessary delay of inspection.

Possible Social Media Slander:

Guidance was provided to two doctors on the event of hospital deaths with case sheet management and avoidance of any social media unwanted messages by providing timely support.

Conclusion The Prevention of Harassment Subcommittee remains steadfast in its commitment to protecting the dignity, safety, and professional well-being of all IMA KSB members. We look forward to continuing our work under your esteemed leadership to ensure a secure environment for the medical community.

IMA-KSB Orations Review Sub-Committee Report:

Dr.Veerabhadiah.T.A

Dr.Suriraju.V

Dr. Harisha Delanthabettu

Dr. Shanmuganandan.V.C.

Dr. Madhusudhana Kariganuru

Following is the Report of the IMA-KSB Orations Review Sub-Committee as discussed and approved in the 890th SWC Meeting held at Madikeri on 1st March 2026 and in the 316th State Council Meeting held at Koppa of Chikkamagaluru Dist. on 26.04.2026

With reference to the responsibility entrusted to the Orations Review Sub-Committee, a meeting of the Committee was held on 21-02-2026 at 9:00 PM through the Zoom platform. The Committee carefully examined the records and deliberated in detail on the existing structure, relevance, financial sustainability, and continuity of the orations conducted during the Annual Medical Conference of IMA-KSB.

Upon review of the records, the Committee noted the following concerns:

1. The present fund position of most existing orations is minimal and financially unsustainable.
2. The cumulative duration of multiple orations occupies a substantial portion of the conference schedule.
3. Most orations have been conducted continuously for the past 25–30 years, necessitating structural review in the context of changing times.

The Committee also observed that while earlier orations were instituted in the name of senior stalwarts who rendered exemplary service to the profession and fraternity, the present era of rapid technological advancement, artificial intelligence, and easy access to information calls for a reorientation of format and purpose to maintain relevance, dignity, and impact.

After detailed discussion, the Committee unanimously suggests the following recommendations:

1. Creation of One Consolidated Oration Establish a single consolidated “Stalwarts of IMA Karnataka Oration.” All existing oration names may be respectfully merged and acknowledged in the official citation, thereby preserving their legacy.
2. Reduction in Duration : The duration of each oration session shall be limited to 30 minutes in total, inclusive of introduction, felicitation, and the main oration.
3. Institution of Four New Orations : Four new orations may be instituted to reflect contemporary relevance and emerging areas in the profession.

The modalities, financial structure, and detailed guidelines for these new orations may be formulated by this Committee in due course and placed before the State Working Committee for approval.

The State Working Committee (SWC) in principle accepted the recommendation

- 1) To merge all existing orations into a single “Stalwarts of IMA Karnataka Oration
- 2) The duration of each oration shall not exceed 30 minutes.
- 3) The same committee shall formulate and submit fresh guidelines for the institution of new orations in IMA KSB.

Additionally, it was concluded that: The names of all orations shall be prominently displayed at IMA House of Bangalore as a “Hall of Fame” in the coming days, in recognition of their contributions.

PROPOSED GUIDELINES FOR INSTITUTION OF IMA ORATIONS AND AWARDS: Presented in the 894th SWC Meeting held on 04.10.2026 at Bengaluru.

2. No donor interference

The donor may suggest the broad purpose of the Award or Oration, but shall not participate in selection of the recipient or orator.

3. No political or commercial naming

Awards should not be named in a manner that compromises the professional or academic character of IMA.

4. Approval

Every new Oration/Award must receive prior approval of the IMA KSB State Working Committee/competent authority before accepting the contribution.

5. Corpus protection

The principal corpus should preferably remain intact. Only approved income/returns should be used for the annual award/oration expenses.

6. Continuity

If the corpus becomes insufficient to sustain the Oration/Award, IMA KSB may:

- seek enhancement from the donor;
- use additional sponsorship;
- merge/restructure the award; or

My Commitment

Throughout these two years, whenever IMA needed support—whether through time, manpower, sponsorship, institutional resources, membership mobilisation or Government representation—I tried my best to make myself and Regal Hospital available.

My guiding principle throughout my tenure was simple: Give more, remain available, and always keep IMA and the welfare of our medical fraternity first.

Regarding KPME

Fire NOC Issue – A Major Relief for Doctors & Hospitals

For the past several years, the Fire NOC had become a major concern for hospitals, clinics, and polyclinics across Karnataka. Rising fees, stringent norms, and procedural complexities created hardship not only for healthcare establishments—especially small and medium hospitals—but also for fire department officials. For many hospitals, it had become a do-or-die situation.

After nearly five years of persistent follow-up and sustained representations, the Government has granted significant, doctor-friendly relief. These include exemption for clinics and polyclinics, extension of compliance timelines from 2 to 5 years, and reduction of Fire NOC fees to ₹20 per sq. meter for hospitals less than 21 meters in height.

Further, as per the recent orders:

- The Fire Compliance Certificate (Fire CC) will now be renewed once every 5 years, reducing the burden of frequent renewals.
- Day care centre and other coteries without inpatients are exempted from getting Fire NOC/CC. However they have to follow minimum fire safety norms and submit an affidavit in this regard to the appropriate authority.
- The cost for issuance of Fire Compliance Certificate has been rationalized and fixed, bringing much-needed financial relief to hospitals.
- The renewal requirement is applicable only to hospitals, thereby easing regulatory pressure on smaller healthcare establishments.

This landmark decision has brought immense relief to doctors and healthcare establishments across the state.

We must use this opportunity to strengthen IMA by highlighting what the association has done for doctors and by educating members about its vital role in policy-making and protecting the interests of the medical fraternity.

We sincerely express our gratitude to the Government of Karnataka for this progressive and practical decision. At the same time, it is our collective responsibility to strictly adhere to Fire NOC regulations and maintain the highest safety standards in all healthcare facilities.

I respectfully acknowledge the persistent efforts of past and present leaders of the Indian Medical Association Karnataka State Branch—Dr. Yogananda Reddy Y.C, Dr. V.V. Chiniwalar, Dr. Veerabhadraiah, Dr. Madhusudhana Kariganuru, Dr. Pavan Patil, Dr. N.T. Srinivas, and Dr. Dhananjay Sarji. Their continuous representations before the Former Home Minister, Former Health Minister, Former Law Minister, Fire Department officials, and Chief Secretary Sri Sharath Chandra ultimately led to this positive outcome.

We also thank Hon'ble Former Health Minister Sri Dinesh Gundurao, Hon'ble Former Law Minister Sri H.K. Patil, and Hon'ble Deputy Chief Minister Sri.Dr.G. Parameshwara for their active involvement in simplifying the fire safety guidelines and addressing the concerns of the medical community.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

PATHI RAJAVARDHAN & CO

Chartered Accountants

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Association in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Association's financial reporting process.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to Influence the economic decisions of users taken on the basis of these financial statements. APPENDIX-I TO THE INDEPENDENT AUDITORS REPORT

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
