### *Warmest Regards and best wishes*

“Setting an example is not the main means of influencing others, it is the only means”.

IMA is one such kind, influencing all of us to be united and work towards the betterment of our fraternity and society. IMA Focus is the magazine of our fraternity reaching all the doctors, making all of us aware of the activities going on in every part of the state, sensitizing all the members and helping us move forward in unison. My respectful appreciations to all the Past Focus editors and my previous editor Dr. Devdas Rai for making IMA Focus a popular and an impressive magazine.

I would like to thank all the seniors and members of IMA for electing me as the editor of IMA focus for the year 2021-22. I seek all your blessings and wishes as I take up my new post as the editor IMA Focus for this year.

Covid 19 has shown us how quickly we can adapt to the new norm. The road to the recovery is not very far as we are hopeful that with the huge vaccination drives and fall in the new cases we all can be back on our tracks in a safe and better world with new living norms.

I must congratulate all the members participated in the Doctors Olympics 2021 held at Nasik and showed their excellence in sports, bagging many medals for IMA Karnataka. It was an appreciating move from IMA KSB in rendering the monetary support to the field of sports.

IMA Medical Students Network (IMAMSN) conclave held on 24 October was a splendid one, showing us the new ray of hope for the future of our profession, as the young budding medical students joining IMA. I congratulate all the mentors and office bearers of IMA MSN Karnataka chapter.

Kudos to the WDW Karnataka team for the admirable virtual women doctors' state conference with informative scientific sessions and cultural activities.

The most awaited and expected conference was IMA Annual State Medicon 2021 held at Jindal, Toranagallu. It was resoundingly successful in a glorious venue with meticulous arrangements. Kudos to the whole organizing team, IMA Siruguppa and eminent leaders Dr. Madhusudhan Kariganuru and Dr. Y.C. Yogananda Reddy for conducting such an extraordinary physical conference with their hard work and dedication.

My heartfelt congratulations to the newly elected team of all the branches of the state and Congratulations to our senior and zestful leader Dr. Kateel Suresh Kudva and his team taking oath as the new President of IMA KSB for the year 2021-22.

Congratulations and appreciations to the outgoing team led by Dr. M. Venkatachalapathy for their exceptional work done for the betterment of our IMA in their tenure.

IMA HQ releases the calendar events of medical importance every year. If we all follow them collectively it will definitely have a greater impact in the society.

### **Following are the few important days**

#### **1] World Diabetes Day on 14th November:**

There are millions of people with diabetes in India not having proper access to the diabetic care. We have around 80 million diabetic patients in India.

Diabetes is a disease involving multiple organs in the body so it must be treated in a comprehensive and multi disciplinary approach.

The theme for this year is "Access to diabetic care".

With the pandemic glooming on the country

and the world, access to the medical care was difficult and restricted because of which we are seeing a sudden surge in the diabetic patients with more complications.

But many of the complications associated with diabetes are preventable and treatable without causing any permanent damage to the organs.

For this multi disciplinary modality of treatment to actionize, it's important to educate our own fraternity as well as public about the disease and its complications.

IMA HQ has organized a mega Diabetes Conclave on 14th November beginning with walkathon and webinar series for 9 days.

I request everyone to be a part of this mega event. It's a program to bring awareness among the medical fraternity regarding diabetes, its complications and about treating diabetes as a whole not just the control of blood glucose levels. If we don't consider the importance of inculcating healthy life style, India will definitely become the capital of diabetes soon.

The Fit India Movement, an initiative launched by the Honourable Prime Minister of India, under which people are encouraged to do more and more physical work so that they can improve their health and build a healthy country.

IMA joining hands with the other speciality organisations can create further awareness and organise screening programs to detect and treat the diabetic patients at the earliest.

With the advent of medical technology and Artificial Intelligence for screening, appropriate care must be made available and accessible to all the diabetic patients. Let us all

work together in detecting diabetes early and attain the stage of complication free diabetics.

## 2] National Epilepsy Day on 17th November:-

17th November is observed as the National Epilepsy Day to create awareness about the disease.

According to WHO 50 million epilepsy patients are there around the world and in India its around 10 million. Epilepsy is mostly treatable with medical line of management. Let us create more awareness about the fallacies, myths and superstitious beliefs of the disease and guide the patients and their guardians to avail the correct and better treatment.

## 3] World Antimicrobial Awareness Week 2021 -

WHO along with few organisations celebrate this week from 18-24 November every year.

The theme forth is year is Spread awareness, stop resistance.

Antimicrobial Resistance (AMR) occurs when bacteria, viruses, fungi and parasites change over time and no longer respond to medicines.

This makes infections harder to treat and increases the risk of disease spread, severe illness and death.

We should spread awareness about AMR and about over use of medications, self-medications, google treatments, buying medicines over the counter without the proper examination by the doctors and its consequences.

## 4] World AIDS Day:-

It is observed on 1st December of every year.

Theme for this year is “Ending the HIV epidemic Equitable access, Everyone’s voice” It is conducted to increase the awareness and knowledge about HIV and speak out against HIV stigma and to provide improved health care facility in moving towards ending the HIV epidemic we from IMA can take the front seat in creating the awareness about the disease, its transmission and ways of preventions by conducting educational lectures or displaying videos about the same to the younger generations like the high school children and college students who are the vulnerable group.

I appeal to all the branch secretaries to send the branch activity report by 20th of every month.

I thank Dr Narasa Reddy of Manasa Hospital, Devanahalli and Jain Mission Hospital, Chikkaballapur for sponsoring this issue.

I wish everyone a blissful Diwali.

May the festival of light radiate the rays of hope and positivity in all our lives.

ಸರ್ವರಿಗೂ ಕನ್ನಡ ರಾಜ್ಯೋತ್ಸವದ  
ಶುಭಾಶಯಗಳು.

ಸಿರಿಗನ್ನಡಂ ಗೆಲ್ಲೆ, ಸಿರಿಗನ್ನಡಂ ಬಾಳ್ಗೆ.

*“Strive for continuous improvement,  
instead of perfection”*

Your feedback and suggestions are always welcome.

# PRESIDENT'S MESSAGE

## PRESIDENTIAL ADDRESS

**Delivered at 87th MEDICON 2021**

**TOGETHER WE CAN...**

**Wish you happy Dipavali**

Respected Inaugurator of 87th MEDICON 2021 of IMA KSB, Sri Pavankumar Malapati, District Commissioner of Ballari District. Chief Guest of the day Sri.Murugan P.K. President Vijayanagar Works, JSW Steel Limited Ballari. Esteemed Guest of Honor Dr. Ravi Wankhedkar, Treasurer of World Medical Association and IMA National Past President, out going President IMA KSB Dr.Venkatachopathy, Immediate Past President of IMA KSB Dr Madhusudhan Kariganuru, all Past Presidents of IMA KSB, Vice Presidents of IMA KSB 20-21 & 21-22, Hon. State Secretary Dr.S.M.Prasad, Joint Secretary Dr.Vinay, Assistant secretary Dr.Soumya, Treasurer Dr.B.P.Karunakar, P.R.O Dr.Ravindra, and members of State working committee of the year 2020-21 and 21-22, Dr.Achuthkumar. C, Organising Chairperson. Dr. Manoj Kumar B. Organising Secretary, Dr. K. Gangamma, President of IMA Siruguppa Branch, members of IMA

**Dr. Kateel Suresh Kudva**

Siruguppa Branch and various branches of IMA Karnataka State, Print and Visual media friends.

**Ladies and Gentle men,**

Indian Medical Association is a voluntary organisation of Doctors of modern scientific system of medicine and also is largest non-government medical organisation in the world.

The objects of our Association are promoting the improvement of public health, medical education, research and working with state and central governments in health care.

It is because of latest developments in modern medicine that infant mortality, a sensitive index of health care delivery of any country which was 195 per 1000 live births in 1947 has come down to 32. (in Udupi district it is 5.93, and Kerala it is below 4), M.M.R is 0.113 percent (113 per lakh live births, it is 86.94 per lakh in Udupi). Complex surgeries are now possible in India including major organ donations, that too at most reasonable cost. India is hub of

medical tourism in the world now. Earlier rich and politicians used to go to western countries for complex medical and surgical treatment, now it is vice-versa. Life expectancy has increased up to 70.8 years from 31yrs in 1947.

Even during Covid19 Pandemic, which has played havoc in the world, India managed the situation satisfactorily due to the dedicated efficient management, by the involvement of both private and government doctors paramedical staff round the clock and reduced the mortality to around 1.8%. Vaccination campaign in India is one of the best in the world. In spite of overburden of 138 crore population. India is the only country in the world to vaccinate more than 100 crore doses by now.

In spite of all positive developments in the medical field, faith is gradually being reduced on doctors, due to various factors. Commercialisation of medical education and medical profession due to irresponsible Governments, their attitude and rules. We should also introspect our self, how health care delivery can be improved in our country, by constant proper dialogues in our association, as well as with the Governments.

### **Rural Health Service**

India has rural population in majority, and agriculture is main source of income. If we can take care of rural health it will prove a long way in improving national health. Government is not only spending less than

1.2 to 1.6% of GDP in health, health facilities are concentrated in urban area and rural population is neglected. Government is shedding crocodile tears that doctors are not going to rural area. But if Government can provide adequate infrastructure with proper pay scale, adequate paramedical staff and security, IMA is ready to take the challenge of providing doctors to rural service. The live example to prove this is now hundreds of doctors are ready to join compulsory rural service, but government is not utilising their service, as there are no sufficient vacancies. Government can increase number of posts and can absorb them if they mind it, instead of wasting money in unnecessary projects. Health and Education should be given first priority for the development of the nation.

### **Eradication of Quackery**

There is threat to public health by quacks. It is estimated that more than 12.68 lacs registered modern medicine in India and there are more than 1.25 lakhs quacks in Karnataka alone. Added to this there is crosspathy of modern medicine by ayush and homeopathy doctors. Only by creating awareness in public and strict legal action against quacks can curb this menace. IMA requests every IMA member to enlist the quacks practising in their area with address to State anti-quackery committee for addressing this problem.

### **Crosspathy**

Prescription of modern medicine by non-MBBS Doctors can be injurious to

health or even fatal. It takes 10 years to study what is right and what is wrong. Doctors of other system can not learn by short course. We hail present government for withdrawing the circular of allowing Ayush Doctors to use modern medicine drugs in emergency in Government medical establishments after short training. However present government is confused and has allowed integrated doctors to use modern medicines which is not only illegal, but also contempt of Supreme Court order which has repeatedly held that no person can prescribe modern medicine unless his/her name is registered in MCI(NMC) or State medical register. We have to oppose this circular legally by filing a writ in High Court of Karnataka.

### **KPME ACT**

To Address the demand of anti-quackery act by IMA, Karnataka government has brought KPME act in 2007, which got implemented in 2010. However amendments in 2017 are having ingredients which are impractical. Quacks are more comfortable under this amended act, than qualified doctors and medical establishments. As per section 14 of Indian Constitution, government should have included government medical institutions also. Hence IMA opposes this act tooth and nail. IMA Puttur has filed a writ against this act in High Court of Karnataka. IMA KSB will implied in this writ and try to see that the KPME Act is squashed.

### **PC-PNDT ACT**

Preconception and prenatal diagnostic Technique act is an act, to stop female foeticide and to arrest declining male to female sex ratio. IMA welcomes this act. Doctors Against Sex Selection(DASS) Committee is formed at national level and state level to assist the government in this endeavour. But this act has many ingredients such as for minor clerical errors, doctors are punished with seizure of ultrasound machine and imprisonment. Even registration and renewal fee is unreasonably high. IMA strongly demands to amend this act, to remove such unreasonable ingredients.

### **Assault on Doctors and Medical Establishments**

Assault on doctors and medical establishments are increasing day by day. As per information 75% of doctors and 48% of ICU's are attacked. In many instances doctors and staff have sustained serious injuries even leading to death and hospital properties have been damaged. Antisocial elements join attendants of patient and cause harm. All these violences are in increasing trend during Covid19 Pandemic.

IMA urges doctors to follow Ethics. No doctor wish to cause harm to the patient's health. In majority of cases there is no negligence of doctors and staff. Due to severity of disease and late arrival to medical treatment, there may be deaths, which can not be avoided even in best of the best institutions with best of the best treatment made available.

Karnataka government has passed an act, Karnataka Prohibition of Violence against Medical Service personnel and damage to medicare institutions Act-2009. But this act is mild with imprisonment up to 3 years only. Hence culprits get bail easily. Hence we urge this act to be made more effective by increasing the imprisonment above 7 years, so that bail will not be granted easily. Only this act is implemented strictly, it will protect doctors, staff and properties. Unfortunately Police officials are not taking immediate and timely steps. to protect the doctors and paramedical staff.

Even Epidemic Act by central government is also toothless as punishment awarded is less than 7 years. And the act will be applicable only during epidemic. We request both State and Central Governments to amend the acts suitably to make it more effective.

### **Consumer Protection Act**

Our long waiting demand for capping of the compensation is still pending. There are no guidelines for awarding compensation. Compensation should not bring financial crisis to the doctor. In some instances Courts have been unreasonable to award as high as 11 crores compensation, making the survival of doctor impossible.

Even in CPA act 2019, initially medical profession was included. But after the report of Parliamentary Standing Committee the medical service in this act was dropped. However it is left to the decision of Apex court how to interpret it. Hence sword is still hanging over our head.

### **National Medical Mission Bill**

The earlier Medical Council of India was managed by able and highly educated personalities in medical field. The medical council of India was constituted by parliament of India through the MCI act 1956. It was an autonomous body with representation from all states, but Niti ayog has proposed the NMC bill and Govt of India has implemented it inspite of strong objections. This bill is antidemocratic, as major number of members in NMC are nominated officials. It is anti federal, as at a given time all states are not represented. It is anti poor as private medical colleges are free to collect fees as per their whims and fancies. There are more possibilities for corruption, as many officials are nominated, not elected. There is also more chances for quackery as it allows Para medical persons to practice modern medicine. It encourages crosspathy as inter facing of modern medicine with ayush and Homeopathy is one of the ingredient in the act. Our apprehensions are becoming true, as already govt has taken retrospective steps as per this act like Health officers are called for from B.Sc nursing for posting in sub centres, CCIM has already notified MS course for Ayush graduates. By 2030 govt of India is targeting to have only integrated system of medicine in medical colleges. It is big blow to modern medicine. Indian doctors are respected world wide and employed abroad on priority, will loose opportunities after this. The medical tourism to India from other countries may stop.

IMA respects all systems of medicines and wish to have all systems of medicines to practice in their own pure form. But IMA is not against integrated system of treatment to a patient providing best available treatment in every system of medicine, than a doctor burdened with knowledge of all system, making jack of all trades and master of none.

### **Health and Education Policies :**

IMA likes to participate with the govt in the above matters, which benefits common man. Covid-19 pandemic in last 2 years proved the need of this public private partnership (PPP) in the health delivery system. Doctors both from govt and private have sacrificed their life during covid-19 treatment, by running their clinics and medical establishment day and night through out the year. This public private partnership in future also to give best health care delivery to the public should be planed. But it should be win win situation to all concerned.

### **Covid-19 Compensation**

Govt has given call to private clinics and medical establishment to function uninterruptedly to manage covid 19 situation and to manage non-covid19 cases and promised to cover by life insurance and compensation to the treating covid19 warriors both in govt and private set up. But now steps are taken by the govt on the contrary. They are not awarding compensation to private doctors died while treating covid19 patients. IMA strongly

demands govt to take proper steps to mitigate this discrimination.

In addition to this, it was promised by the govt that it will give incentives to all its employees in govt set up involved in the treatment of covid19. But now the govt is telling that only those who worked with PPE kits will be given incentives. It is pertinent to note that those who are working in OPDs and Fields with out PPE kits are more prone to infection and are denied these facilities. Even contract doctors are denied these facilities, in spite of uninterrupted medical service offered. We request the govt to rectify these mistakes.

Politicians and Beurocrates have posed as medical consultants, during this covid19 pandemic with unreasonable orders and harassment to our medical officers and Higher officers of Health dept. Suicide case of Mysore district due to harassment was live example of this. IMA strongly condemns this.

### **Policy of family Physician**

Due to the Specialisation culture, the family physician system is weaning off. This vacuum is filled by ayush doctors and causing menace of crosspathy. This can be rectified only by remodelling health care delivery system by encouraging family physician system. PG courses in family medicine should be started to rectify this problem.

### **Antibiotic policy**

Resistance to antibiotics is in rising trend. It is duty of every one of us to have a

proper antibiotic policy in our medical establishments, so as to save the future generation. This year IMA will try to take steps in this field to create awareness among doctors.

### **Trade Licence**

Even though for KPME renewal, trade licence is exempted, many of our medical establishments are facing problems due to trade licence. In 2020 govt of India has included medical establishments under MSME category where the investment is less than 20 crores and turn over is less than 100 crores in a year. Majority of our medical establishments are of this nature.

Karnataka Municipalities Act 1964 (Karnataka Act 22 of 1964) and the Karnataka Municipal Corporation Act 1976 (Karnataka Act 14 of 1977) has been amended in 2015 in order to meet the objective of the Karnataka Industrial Policy 2014-2019 exempting MSME enterprises from obtaining trade licence in the jurisdiction of local bodies.

Hence those medical establishments with investment up to 20 crores and turn over less than 100 crores can register in MSME portal free of cost and get exemption from trade licence. Similarly concessional electricity charges applied for small scale industry should also be extended to the medical establishments of MSME category.

### **Fire NOC**

National building policy exempts building of less than 15 meters height, from fire NOC. However intent to provide fire safety measures in hospital like proper fire

extinguishers, fire alarm system and other appropriate measures in proper places in the hospital has to be provided.

### **IMA activities proposed in 2021-22**

1. State working committee members will be assigned the post of district coordinator of his/her district and he/she will in turn form district council involving Presidents, Secretaries, State council members and central council members of all IMA local branches of their district. This district council will periodically meet and plan for combined activities at district level, like CME, training programme, sports meet, family get together etc. The similar sub committees of state level will also be formed at district level so as to make IMA district level activities more vibrant.
2. At District level, Federation of Medical Associations (FOMA) will be formed to improve the unity and cooperation among all medical associations and increase the IMA membership. The Presidents and Secretaries of all associations in the district under the chairmanship of IMA district coordinator to plan common activities in the district. IMA membership drive along with all IMA Schemes like KSSS, KSHS and KPPS is to be promoted in this platform. This will enhance, the unity among doctors of different associations and improve IMA activities.
3. The various sub committees will be formed under the chairmanship of able

dynamic IMA leaders to improve IMA activities as well as public health both at state, district and local IMA Branch level.

Whenever possible and feasible I request IMA local branches also to have such committees for the benefit of medical profession and public health. All IMA members will work as one team and

**TOGETHER WE CAN...**

**Jai Hind**

**Jai Karnataka**

**Long live IMA**

strengthen IMA by increasing membership at least to 30,000 this year and take IMA activities to greater heights in all spears of activities.

- A Successful team not only works together but also trust each other
- Coming together is good beginning
- Keeping together is progress
- And working together is success

**President Dr. Kateel Suresh Kudva, Hon. State Secretary Dr. S.M. Prasad and Past State Secretary Dr. S.Srinivasa Met Padmashree Dr. Bograj Raman Rao and reassured him IMA Karnataka State Branch assistance at all times.**

**President Dr. Kateel Suresh Kudva with IMA KSB Past Presidents and Secretaries during IMA Bengaluru Branch Installation of New Office Bearers.**

**Inauguration of Installation Ceremony on IMA Bengaluru Branch on 07-11-2021**

## SECRETARY'S MESSAGE

**Dr. S.M. PRASAD**

**Dear Esteemed IMA members of  
Karnataka,**

**Greetings from IMA KSB.**

We had the wonderful activities in the month of October namely the inauguration of Medical Students Network - Karnataka on 24-10-2021, Sunday at IMA House, Bangalore. Now, the budding doctors studying in most of the medical colleges in Karnataka are Student members of IMA. Their enthusiasm has given boost to IMA. Here, we remember the efforts of visiting most of the medical colleges in Karnataka by our IMA KSB President Dr. M. Venkatachalapathy.

We are happy and overwhelmed by the way Kannada Barahagarara upasamithi conference took place on hybrid platform. Conference gave an insight to all medical fraternity on usage of Kannada in medical practice and communication with patients.

We had the conference by IMA WDW on 23-10-2021 on a virtual platform with cultural programme and appreciated by many.

On 30th and 31st October 2021 87th

MEDICON hosted by IMA Siruguppa became a milestone in the history again with extra ordinary conference with a difference after long time restrictions of Covid-2019. Super human efforts of organising Committee under extra-ordinary Dr.Y.C. Yoganada Reddy, Dr. Madhusudana Kariganur, Dr.Honnegowda, IMA KSB President Dr.M Venkatachalapathy and all the team efforts of a small branch IMA Siruguppa President Dr.K. Gangamma, Secretary Dr.C. Achyuthkumar is memorable. This showed us that "Small branches can do wonders when united". IMA KSB Dr.M.Venkatachalapathy installed Dr. Kateel Suresh Kudva as IMA KSB President for 2021-22. Next team of office bearers for the year 2021-22 took charge.

We welcome the new team of Office bearers from 01-11-2021 on Kannada Rajyotsava Day under Dr. Kateel Suresh Kudva to take IMA KSB and IMA local branches to greater heights.

**CONGRATULATIONS TO THE NEW TEAM  
AND ALL THE BEST !!!**

**Jai Hind**

**Jai Karnataka**

**Jai IMA**

## WOMEN VICE-PRESIDENT'S MESSAGE

**Dr. Anuradha V. Paramesh**

Deepawali Greetings to all our IMA members, on behalf of President & office bearers of IMA KSB.

My Sincere thanks & regards for giving me an opportunity to serve our IMA fraternity, as Woman Vice President of IMA KSB for the year 2021-22.

As we all are aware, Unity of our fraternity has been the need of the hour. Being committed to the wellbeing of our Doctors, I have been actively participating in all IMA activities be it a webinar, CME, Camp or protest called by IMA HQ, right from KPME protest in 2017 since my inception as an IMA member, spreading values of togetherness amongst our brethren.

I would like to again reiterate the benefits of joining IMA:-

1) IMA SCHEMES like KPPS, professional indemnity of 1 crore, KSSS a death benefit scheme to the nominee, KSHS health insurance coverage of 1 lakh to the members and their family.

2) Appreciating / honoring the achievements of doctors & their dependants.

Fighting against Mixopathy is one of the gigantic tasks in front of us. It's not the fight against the different practices of Indian Medicine like Ayurveda, Siddha, Homeopathy, unani but it's our concern against mixing up of all the systems

of medicine. We are for the growth of medicine in their respective field in the purest form without encroaching on allopathic medicine. Mixopathy is very dangerous & we need to fight it out tooth & nail, in the interest of health of public.

Extremely happy & grateful to our National President Dr Jayalal for visiting our branch when he had come to inaugurate 1st IMA MSN (Medical student Network) conclave of Karnataka, first of its kind in the whole of India.

Sincere thanks to Dr. Ravi Wankhedkar, Treasurer, World Health organization & Past National President for gracing the inaugural function at Medicon 2021 at Torangallu on 30th OCT 2021.

On this occasion, I would like to congratulate and appreciate the leadership of our outgoing President, Dr. Venkatachalapathy, highlights of his achievements being

1) Visits to 120 IMA branches & 45 medical colleges &

2) Kick start of MSN conclave in addition to his other accomplishments.

So friends, I seek your help & co-operation in increasing our strength through more & more memberships particularly in Bengaluru. We need to utilize the discounted fee for the same.

**Long live IMA**

## OUT GOING PRESIDENT'S MESSAGE

### Dr. M. VENKATACHALAPATHY

#### Dear esteemed members

It gives me immense pleasure in writing this message as out going president of IMA-KSB.

It was a great experience of our journey started on 18/10/2020 when I took over as President with my team working very hard to fulfill the obligations of safeguarding the profession. I travelled nearly 36000 kms by road, visited almost 140 IMA Local Branches, where ever I had gone I had stressed the need to increase the membership enrollment. Not only that to increase the enrollment to various benefit schemes like IMA-KSSS, IMA-KPPS and IMA-KSHS for the benefit of our members. This is the right time for becoming member because the fee is now reduced by 25%.

It was a proud moment for IMA-KSB because we were invited by more than 50 medical colleges and universities to address the medicos, PG Students and Senior residents regarding various advantages of becoming IMA member. I am very happy to declare that all our efforts culminated in IMA-MSN first conclave which happened on 24-10-21 which was addressed by our own National President Dr. J.A. Jayalal and also Registrar of RGUHS university Dr.Ramakrishna Reddy.

Academic Sub-Committee did a humongous task of conducting weekly webinars on 3rd wave of covid for almost 4 to 5 months bringing on board some of the best in the field, I thank

Dr. Harish Delanthabettu and Dr.B.P.Karunakara for fulfilling this responsibility.

Women's Doctors Wing lead by Dr.Savitha Ramesh did wonderful job by running various activities throughout the year both academic & non academic women oriented programs despite covid 2 wave. I thank the Women's Doctors Wing team for conducting conference on 23-10-21 which was addressed by National President Dr.J.A.Jayalal.

This time we had IMA National Sports Olympiad at Nashik for which IMA-KSB has very generously sponsored Karnataka contingent of 51 members. Also I am happy that we could win many medals at individual and also at team level sports. We have started a sports corpus fund, I urge everyone to contribute generously.

IMA-KSB has encouraged Cultural activities, since the IMA National Convenor for Standing Committee Dr.D.Anitha belong to our state she has mobilised maximum number of participants for taking part in this national activity. Dear esteemed members, as designated syndicate member of RGUHS university, I have always voiced the concern of students at all levels.

For all the masterly activities to happen we have core team which used to help me and support me at all times. I fail in my duty if I

don't immensely thank my best friend and Past President of IMA-KSB Dr.Y.C.Yogananda Reddy. Two other Past Presidents Dr.Honnegowda and Dr.Madhusudhan Kriganuru who have always helped me at all times.

I extend my heartfelt thanks to the wonderful support we received from IMA-KSB office Bearers Secretary Dr.S.M.Prasad, Treasurer Dr.Karunakara.B.P all Vice-Presidents Dr. Dinesh Hegde, Dr.Shivanand Kubsad, Dr.Jaspalsingh and Dr.Uma Sheshagiri and other office bearers. I thank Dr. Devadas Rai who single headedly brought out all the issues of IMA Focus without putting any burden on

**Thank you**

**Long Live IMA**

IMA-KSB Funds. I also thank Dr.Bhaskar Shenoy for taking up the work of KMJ in a very short notice.

I am extremely thankful to the office staff of IMA-KSB Mr.Ashwathnarayan.K, Mr.Ravikiran, Mr.Damodhar, Mr.Puttaswamy, Driver Mr.Venkatesh all the lady House Keepers who supported our work at IMA-KSB.

I fail in my duty if I don't thank my family members my parents, my wife Dr.D.Anitha and my daughter V.Vismaya who always supported me. If I have forgotten any names to mention kindly excuse me it is only unintentional

### ಭಾರತೀಯ ವೈದ್ಯಕೀಯ ಸಂಘದ ಪ್ರಾರ್ಥನೆ

ಎಲ್ಲರೂ ಸಂತೋಷವಾಗಿರಲಿ,  
ಎಲ್ಲರೂ ಆರೋಗ್ಯವಾಗಿರಲಿ,  
ಎಲ್ಲರೂ ನೋವಿನಿಂದ ಮುಕ್ತವಾಗಿರಲಿ,  
ಎಲ್ಲರೂ ದುಃಖದಿಂದ ಮುಕ್ತವಾಗಿರಲಿ,  
ಎಲ್ಲಾ ಆಸೆ ಆಮಿಷಗಳನ್ನು ಮೀರಿ  
ಗುಣಪಡಿಸುವವರು ನಾವಾಗಿರಲಿ.

### IMA PRAYER

May everybody be happy  
May everybody be healthy  
May everybody be free from pain  
May everybody be free from sorrow  
May we be the healing cure  
Beyond every greed & lure

### ಧ್ವಜ ವಂದನೆ

ಭಾರತೀಯ ವೈದ್ಯಕೀಯ ಸಂಘದ ಸದಸ್ಯರಾದ ನಾವು ನಮ್ಮ ರಾಷ್ಟ್ರಧ್ವಜವನ್ನು ವಂದಿಸಲು ಇಲ್ಲಿ ನಿಂತಿದ್ದೇವೆ.  
ಅದರ ಗೌರವ ಮತ್ತು ವೈಭವವೇ ನಮಗೆ ಬೆಳಕು ಮತ್ತು ಶಕ್ತಿ ಮತ್ತು ಅದರ ಪಥವೇ ನಮ್ಮ ಪಥವು.  
ಮಾನ್ಯತೆ ಪಡೆದಿರುವ ರಾಷ್ಟ್ರ ಸಂಸ್ಥೆಯ ಸದಸ್ಯರಾದ ನಾವು ನಮ್ಮ ಜವಾಬ್ದಾರಿಗಳನ್ನು ಅರಿಯುವ ಮೂಲಕ  
ನಮ್ಮ ರಾಜನಿಷ್ಠೆಯ ಶಪಥ ಮಾಡುತ್ತಿದ್ದೇವೆ. ನಮ್ಮ ರಾಷ್ಟ್ರ ಧ್ವಜವು ಉನ್ನತ ಮಟ್ಟದಲ್ಲಿ ಹಾರಾಡುವ  
ಸಲುವಾಗಿ ನಮ್ಮ ಅಧಿಕಾರದಲ್ಲಿರುವ ಎಲ್ಲವನ್ನೂ ಅದಕ್ಕೆ ಸಮರ್ಪಿಸುವ ಪ್ರಮಾಣ ಮಾಡುತ್ತಿದ್ದೇವೆ.

**ಜೈಹಿಂದ್**

**ಐ.ಎಂ.ಎ. ಚಿರಾಯುವಾಗಿರಲಿ**

### FLAG SALUTATION

We, the members of Indian Medical Association stand here to salute our national flag. Its honour and glory shall be our light and strength and its course shall be our course.

We pledge our allegiance to it and realizing our responsibilities as the accredited members of this national organization, we swear we will dedicate everything in our power to see it fly high in the comity of nations.

**Jai Hind**

**General & Laproscopic Surgeon**

Medical Director

**Dr. Narasa Reddy .N.H** MBBS, M.S.

**General Surgeon**

It gives us immense pleasure to inform you all that **MANASA HOSPITAL** which was started in 2007 with 30 bedded hospital now has come up with 60 bedded hospital at Bellary road in Devanahalli town. It is managed by **MANASA HEALTH CARE GROUP (Gowribidanur)** under the stewardship of **Dr. Shashidhar H.S.** It is very close to International Airport and we are providing our health care services to various companies and factories. We have started and we are successfully managing a well equipped I.C.U. with two ventilators and Trauma Care Center with experienced surgeons. Our Hospital has specialized professional Doctors, Consultants in the relevant medical field available round the clock for O.P.D. and for in-patient and emergency services.
