13TH AUGUST 2021

WORLD ORGAN DONATION DAY

Organs have a second life ...

INDIAN MEDICAL ASSOCIATION'S ACADEMY OF MEDICAL SPECIALITIES KARNATAKA STATE CHAPTER

Dear members.

IMA Academy of Medical Specialities, Karnataka State Chapter had Graduation Day Ceremony for IMA-AMS Karnataka, Fellowship in Infertility, on 31st July 2021 at Hotel La-Marvel, Bengaluru, where National Chairman, IMA-AMS, Hqrs. Dr. Shreehari Rao participated as chief guest. 22 Students were awarded with prestigious fellowship in wonderful program. Our IMA-AMS Karnataka State Chapter has become a vibrant chapter in Southern India.

Suggestions are most welcome. We will implement them

Thank you all for giving opportunity to serve AMS.

Dr. Shivakumar Kumbar
Chairman- IMA- KSB- AMS

Dr. R N Malvegowda
Secretary- IMA- KSB- AMS

EDITORIAL

Dr. B. DEVDAS RAI

World Organ Donation Day is observed on August 13 every year to spread awareness about the importance of organ donation and address, debunk myths related to donating organs. This day strives to encourage people to donate their healthy organs after death in order to save more lives. Donating organs like the kidneys, heart, pancreas, eyes, lungs, etc can help save the lives of those who are suffering from chronic illnesses. Numerous people lose their lives due to the unavailability of healthy organs that could save them. This day aims to help people realize that volunteering to donate their organs after death can be life-changing for many.

Modern medicine has evolved significantly and has made it possible for organs to be transplanted from one person to another and enables them to live a healthy life. The first-ever successful living donor organ transplant was done in 1954 in the United States. Doctor Joseph Murray won the Nobel Prize in Physiology and Medicine in 1990 for successfully carrying out a kidney transplant between twin brothers Ronald and Richard Herrick.

Why does India need to boost "Organ Donation"?

The huge gap exists even when an individual can save up to 8 lives. Awareness is the key to increase organ donor ratios in India. Here are a few statistics:

- 500,000 people die because of non-availability of organs

- 200,000 people die of liver disease
- 50,000 people die from heart disease
- 150,000 people await a kidney transplant
- 10,00,000 lakh people suffer from corneal blindness

Organ Transplantation is a medical procedure that saves up to millions of lives each day. Every single day, at least 15 patients die waiting for an organ and every 10 minutes a new name is added to this waiting list. Organ donation from a single individual can save up to 8 lives. Recently, due to increasing awareness and important need of Organ donation, many family members and people from different parts of the world are coming forward to donate organs like heart, liver, kidneys, intestines, lungs, and pancreas, so that they can be transplanted into another person who is in a urgent need for it. India is struggling for organ donations and organ transplants, as it has one of the globally lowest Organ donation rates. It also faces acute shortage of organ transplants due to the unfortunate gap between the number of organs required and the organs available for transplantation.

In India, the main challenge that creates obstacles for organ donation is compounded by bureaucratic hurdles and lack of awareness. The first challenge is red-tapism and lengthy paperwork. According to existing rules, if the potential donor is not related to the person who needs the organ, the transplant needs to be approved by a state-level committee or by a hospital committee that includes government officials. The next challenge is that it is often difficult for family members to accept that their loved one is brain dead. On a life support system, the person looks like he/she is sleeping. The fact that the body is warm to touch and the heart is beating makes it difficult for Doctors to convince the family members to donate the organs of their relatives. Even if the family is

ready to donate organs, superstitions and misconceptions become impediments.

Nevertheless, there has been an increase in the number of donors in the last five or six years, but since the base is very minimal, the effect is also very weak. Several cine celebrities, sportsmen and business captains have come forward and supported the cause and the government is also trying to promote organ donation and how it can save millions of lives.

Praiseworthy initiative was taken by the southern state of Tamil Nadu by declaration of brain death mandatory. It is still continuously promoting and supporting the cause of organ donation. Citizens, traffic police and government bodies come together when needed in a coordinated effort to create green corridors that are special routes created to allow collected organs to reach the expected hospital waiting for it as soon as possible. Recently, a big leap was achieved in the city of Mumbai as it crossed the 200 mark of cadaveric organ transplants which was done due to the two-decade old organ donation program. This year, 208 transplants were successfully done because 73 families donated organs of deceased loved ones. The possibility for achieving this milestone came true due to rigorous spreading of awareness by the government and social communities and also due to identifying and notifying brain deaths and allowing non-transplant centers to retrieve the organs.

Now, along with organs you can also donate tissues such as skin, heart valves, ligaments, bones, veins, corneas, etc. so that they can be used in transplant procedures in order to repair various defects, injuries, and so forth.

It is necessary for the people of India to understand the urgency of Organ Transplantation and its benefits, India must acknowledge those who donate their organs as it will encourage others to follow suit.

PRESIDENT'S MESSAGE

Dr. M. VENKATACHALAPATHY

Dear esteemed members,

it's been a very busy month for everyone as we were relieved because of the decline in the positivity rate of Covid cases in the Covid wave. As I have mentioned in my previous messages the academic activities are going on very successfully under Academic, Women Doctors Wing Sub-Committees and also from IMA Karnataka State Branch to educate our members in spite of Covid restrictions.

I have been touring all over the state and visited various IMA branches like Haveri, Siddapura, Sirsi, Mundagod, Yallapura, Haliyal, Dandeli, Kararwar, Ankola, Kumta, Honnavar, Bhatkal, Kundapura, Mulki, Surathkal, Ramanagara-Channapattana, Kollegal, Chamarajanagar, Nanjangud, Mysuru, Belagavi, Saundatti, Dharwad and Ranebennur. Many IMA branches are doing a lots of activities and are very vibrant. However, some of them have become redundant, inactive and not participating in any IMA Karnataka State Branch programs. In some branches the new office bearers who taken over the office have not informed and updated their details in this regard to the IMA Karnataka state office which is resulting in communication difficulties with such branches. Hence, I sincerely urge all office bearers of the local branches to send the details to the IMA Karnataka State Branch.

During my tour programme I have made it a point to address the medicos where ever possible to draw them to the IMA fold and prime them to join our august body. In fact what I have observed is there is lack of awareness to a large extent amongst the under and Post Graduate students about our association.

I wish to thank all the members who were responsible for facilitating a wonderful reception and felicitation that I received as president of IMA Karnataka State Branch during my visit to Kasturba Medical College, Manipal, Srinivasa Medical College, Surathkal, A.J Medical College, Mangaluru, Kasturba Medical College, Mangalore, Father Muller Medical college, Mangaluru. Kanachur Medical College, Mangaluru, Mysuru Medical College, Mysuru, Belagavi Institute of Medical Sciences, Belagavi KLE Society's JNMC, Belagavi and SDMC, Dharwad.

The important issue which we are trying to easify is regarding KPME is the fire NOC/compliance. We had a very cordial discussion with Health Commissioner Dr.Trilokchandra ably assisted by Dr. Vivek Dorai and also Dr. Kiran Kumar from health Department. We have explained in detail about the hurdles faced by the small and medium sized hospitals in implementing the

Fire Safety norms and getting the clearance certificate. We have submitted an easily implementable norms for the 18 categories of establishments keeping in view of the National Building Code. I thank Dr.Pavana Patil and Dr. Sandeep Prabhu for taking active participation in this regard. In the same meeting, we have brought out issue of oxygen plants which are being made compulsory for hospitals with >50 beds which we have argued will be very difficult to implement in old existing Hospitals. In fact we have expressed our opposition to such unilateral

decision by the government.

We are very happy to announce that we are conducting IMA Karnataka State Branch Kannada Vaidhya Barahagarara Conference on 3rd of October for which preparations are going on. Also the IMA College of General Practitioners, Karnataka State Faculty, IMA Academy of Medical Specialities, Karnataka State Chapter and IMA-KSB Women Doctors State Conferences are on the cards. I request all the members to attend. I welcome everyone to these activities.

Stay Safe

Long live IMA

Kind Attention Please:

IMA Members who are interested to work in various Sub-Committees of IMA Karnataka State Branch in the year 2021-22 may kindly contact Dr.Suresh Kudva, President-2021-22 by **Whatsapp No. 9448725265**

The Names of the Sub-Committees are as fallows :-

1. Academic Sub-Committee
2. Anti-Quackery Sub-Committee
3. Sub-Committee on Prevention of Harassment on Doctors
4. Membership Drive Sub-Committee
5. Hospital Sub-Committee
6. Sports Sub-Committee
7. Women Doctors wing
8. Doctors in Service Sub-Committee
9. Doctors in Medical Education Sub-Committee
10. Junior Doctors Sub-Committee
11. Medical Students Network (MSN)
12. Public Health Sub-Committee
13. Doctors Against Sex Selection (DASS) Sub-Committee
14. IMA-KSB Committee for Drugs and Medical Equipment
15. Digital IMA and Medical Software Sub-Committee
16. Pharmacovigilance Sub-Committee
17. Medical Disaster Management Sub-Committee
18. IMA-KSB Kannada Vaidya Barahagarara Sub-Committee

VICE PRESIDENT'S MESSAGE

Dr. UMA SHESHGIRI

Namaskara and greetings to all the fraternity members. It is nice to see that mood and spirits are building up for upcoming festivals and festivities. Life is coming back to near normalcy of Covid era after the deadly attack of second wave.

However, the mystery and uncertainty of Covid is and will haunt us for some time to come. At this point of time there is huge division of opinion amongst scientists, researchers and health care providers. We have not witnessed this magnitude of division in the thought process of health care stakeholders in the recent past. Following are some of the debatable issues on hand,

1. Is the third wave (and subsequent waves) really waiting in the wings?
2. Are the people who have received two doses of vaccines absolutely safe? Are they well protected against newly evolving variants? Some data show otherwise.
3. How safe are the people who have received first dose and still waiting for the second dose even after the gap of 16 weeks, particularly those who fall in vulnerable group?
4. Is the booster dose required after two doses in general and specially for health care workers / frontline workers?
5. Will the next wave inflict children? Do we have safe vaccine for them? Are there sufficient clinical trials conducted in this regard?
6. Is the decision to open schools and colleges justified?
7. What is the actual efficacy of various vaccines against the claims made by various vaccine producing companies? Have they achieved at least lower benchmark of protecting individuals from primary and reinfection?
8. Is India in endemic stage?

Well, the list is exhaustive and quite intriguing. There is no right or wrong answer to the above mentioned questions at this point of time and I guess only time will tell us.

With all these controversies surrounding us and a series of festivals coming up, I hope and pray that the people will exercise constraints and safeguard themselves, others.

Another disturbing development is recent changes recommended in the curriculum of MBBS course. As per the notification of NMC a week's training of AYUSH during the internship of MBBS graduates is on the cards. How justified is this? As if diluting the Allopathic system with the so called Mixopathy was not enough, this is new disastrous imposition of fanciful thoughts

by the authorities. The Doctors should stand up against this and support the medical students. We must remember that every stream has its own structure, system, value and essence and it is the duty of policy makers to respect this.

I am really proud to be part of IMA, who has been not only in forefront of battle against Covid but also keeping its academic activities in full swing.

My best wishes to each one of you and your family members. Stay safe and serve well.

Long live IMA

Jai Hind

Jai Karnataka

Congratulations

Dr. PRAHALAD VENKATESH KANCHI
Hubballi

**Former President, Indian Medical Association,
Karnataka State Branch for having been
unanimously elected as President of prestigious
Karnataka Medical Council.**

SECRETARY'S MESSAGE

Dr. S.M. PRASAD

**Dear Esteemed Members of IMA,
Greetings from IMA Karnataka State Branch.**

It is good to know that number of Covid cases have come down allowing us to move around with all safe precautions and allowing us to conduct some small meetings physically all over our state. But with all due extra precautions, particularly medical professionals need to work in clinics, hospitals, etc. All of us know that unfortunately our neighbouring state Kerala is experiencing the high infection positivity rate for many weeks. As the lock down is only on weekends and many festivals during these months are expected, a higher rate of transmission may be there. As medical professionals, we need to take extra precautions while examining patients. Though it is expected to involve more number of children and younger age population now, the family members of infected asymptomatic children are the immediate contacts. Especially those with comorbid conditions will be more affected. Many of us are also at most risk inside clinics and hospitals.

It is better to take utmost care depending on our personal situations and environment till the threat of Covid comes down gradually and stays endemic on low transmission rate. We know that theoretically any viral Pandemic will continue to stay in pockets in some areas for

nearly 10 years in a region. (as the Flu Pandemic).

Whatever said, all of us need to follow SMS safety precautions apart from adequate number of Covid vaccinations.

We wholeheartedly thank all our office bearers of local IMA branches for hosting the meeting during our IMA KSB President's visit to the branches & institutions even during Covid situation. We immensely thank the Dean, Principal, staff members of Medical Colleges & institutions for eagerly participating in the meeting and discussions during the President visit.

As our IMA annual MEDICON-2021 is approaching and all of us know that there will be 5 Orations at the time of 87th IMA Karnataka State Annual Medical Conference (87th MEDICON-2021) every year:-

IMA-KSB Prof. Dr. Nanjundaiah Memorial Association Oration: This has to be arranged by the State Branch of IMA to honour a member of the Karnataka State Branch of IMA who has done yeoman service to the Association.

Endowment Oration: This has to be arranged by the State Branch of IMA. An eminent Physician has to be invited as Speaker.

Prof.Dr.S.V.Govinda Setty Memorial Oration: This Oration shall be for the specific purpose of honouring a Teacher of repute in the field of Medicine in view of the fact that Prof. Dr.S.V.GovindaSetty was himself a renowned Teacher and a Physician.

Prof.Dr.R.H.N.Shenoy Oration: (Co sponsored by Dr.R.H.N.Shenoy Felicitation Committee): This Oration shall be for the specific purpose of honouring a Teacher of repute in the field of Surgery in view of the fact that Prof. Dr.R.H.N.Shenoy was himself a renowned Teacher and a Surgeon.

Dr.A.K.N.Sinha Oration: This has to be arranged by the State Branch of IMA. An eminent Physician has to be invited as speaker. All the 5 Orations are of 40 Minutes duration. The First Class traveling allowance and accommodation of speaker will be met by the Organising Committee of the Conference. Last date to receive the nominations from Local Branches is On or before 30th September 2021. Names received after 30th September 2021 will not to be considered for selection.

Felicitations' to eminent IMA Members: Ten Eminent Members of IMA who have done yeomen services in the different fields like Literature, Sports, Politics, Medical Services Social Services etc., will be felicitated in the inaugural function of the 87th IMA Karnataka State Annual Medical Conference (87th MEDICON-2021). I request you to suggest names and addresses of eminent members of your branch with their Bio-Data, Photo, Address, Phone/Mobile Nos. and E-mail for the Felicitation, to enable the committee for selection of eminent personalities.

Your reply will have to reach this office on or before 30th September 2021. Names received after 30th September 2021 will not be considered for selection.

All Local Branches are hereby requested to conduct Annual General Body Meeting of their Branches and select the office bearers for the year 2021-22 before the end of September 2021 and send the New office-bearers List of all Local Branches for the year 2021-22 (President, Secretary, State and Central Council Members) with Address, Phone / Mobile Nos. E-mail and Fax No. so as to reach IMA Karnataka State Branch on or before 30.09.2021 with a copy to IMA Headquarters, New Delhi. In any case if any local branches fail to send the revised list on or before 30.09.2019, the old list of office bearers will be taken in to consideration.

Any Branch willing to host the 88th IMA Karnataka State Annual Medical Conference [to be held in October 2022] may kindly send an invitation through the Executive Committee of the Branch to the Hon. State Secretary, IMA Karnataka State Branch on or before 10th October 2021. Inviting Local Branch shall Deposit Non-refundable Deposit of Rs.5000/- to the State IMA.

We request all Local Branches to send the Annual Report of all activities conducted from 01-10-2020 to 30-09-2021 to IMA Karnataka State Branch on or before 15th September 2021 for consideration of awards to be given at 87th MEDICON - 2021 at IMA - KSB Dr.M.A.Narasimhachar Auditorium, IMA House, Near IMA Circle, A.V.Road, Bengaluru-560018 on 22nd, 23rd and 24th of October 2021.

Please send your resolutions if any to be placed before the Annual General Body Meeting of Indian Medical Association, Karnataka State Branch to be held at Bengaluru on 22nd October 2021 at 5.00.P.M. Your resolutions will be placed as per merit.

BRANCH ACTIVITIES IN AUGUST
