Secretary's Message

The two years of my tenure...

Dr. Karunakara B.P.

The two years of my tenure as Honorary State Secretary is coming to an end by the end of October 2024 and it's time to reflect on my journey, experience of working with two Presidents and the teams, express my gratitude, impact on the association, world done and the major milestones reached for the organization, acknowledging the helping hands and express my gratitude for the support and the encouragement received, lessons learned and many more.

Let me start with my journey at IMA KSB, started four years back when I took over as the Honorary Treasurer. Four years at the helm of two important responsibilities at IMA KSB as Honorary Treasurer and Honorary State Secretary gave a valuable insight and experience about the functioning of the association, learn about the journey of the association, the problems faced by the members and addressing them. Many incidents and problems that kept on happening at one or other place and the branch and the need for the state branch to jump into action to help their members helped me learn the process of how IMA KSB works. The branches and the members require immediate suggest and back-up from the state branch. Depending upon the gravity of the situation and assessing the issue in different angles, IMA KSB has to advise, suggest and get involved if needed. There haven't been any months without one or other issues. The local branches were happy with the way we provided them the needful support. We are happy that together with all concerned, we were able to solve/ resolve most of the issues. IMA KSB works during these incidents helped me significantly about the IMA leadership and the responsibilities.

At IMA KSB, the guidance, encouragement and support were readily available all through my tenure. The seniors, past Presidents and other senior members were very helpful. On the crucial issues and moments, their guidance helped me do my job

appropriately. Our responses various to the issues and problems were appropriate. I was fortune to have the guidance of seniors and the past presidents who have contributed immensely to the association. I express my sincere thanks to Dr. Yogananda Reddy, Dr. Honne Gowda and Dr. Madhusudan Kariganoor, Dr. Shivakumar B Lakkol, Dr. Venkatachalapathy and many others for their valuable guidance, advice and support on major issues from time to time.

It was a great honor working with two honorable Presidents; Dr. Shivakumar B Lakkol and Dr. Srinivasa S. Dr. Shivakumar B Lakkol sir, with his decades of experience at IMA and wisdom worked with advanced planning. Extensive communication and discussion, taking everyone into confidence and non-aggressive approach to the issues had his unique way of working. His commitment to the cause of IMA and whirlwind tour of nearly 158 local branches during his tenure and his active participation in the RGUHS syndicate meetings and the decision making are indicative of how much one can do to the organization in his valuable capacity. As a team we worked silently on all issues and ensured the interest of the IMA KSB has been taken care of. I learned many things under his guidance.

Dr. Srinivas S and I are known to each other for more than two decades as Pediatricians and working closely at Pediatric association (IAP) for more 2 decades. This long standing friendship helped us working together at IMA KSB. Many issues and incidents happed all through the year across the state and the country and IMA KSB had to intervene or actively participate and deliver its responsibility to fight for the justice of medical professionals and the IMA. We did quite well on all fronts.

Over a period of two years IMA KSB did some commendable jobs! The results and the outcomes helped the association and its members significantly.

The amendment to the Karnataka Medical Council act and bringing state law on violence against health care professionals and the facilities is one of the major milestones for IMA KSB. The law has been passed in the assembly and notified and now, it is expected to provide safety to the healthcare professionals help them to serve the society in better environment. This new law and the amendment happened only because of IMA KSB. IMA KSB worked for nearly a year on every aspect of the issue, consulted and appraised the honorable minister for law, medical education, health minister and many others repeatedly made it possible. Sincere thanks to the seniors who did this wonderful job with their vision, hard work and dedication.

Data safety of the members was one of the not seen not observed works during my tenure. At this age of online frauds and cheating, safeguarding the invaluable details of the member's data was the need of the hour. The precious details of the members were well protected. The innumerable requests from various pharma companies, marketing agencies, various service providers and to the extent from our own members and the branches was turned down. However, members and branches' requests on CMEs, training program and others were supported with circulation of the flyers and other materials from the office.

IMA KSB library: IMA KSB is very keen to help students learning and happy to provide facilities. The library facilities, one of the prime attractions post MBBS junior doctors preparing for various entrance exams was expanded to accommodate more students. The new facility was opened in the ground floor in 2023 to accommodate ever increasing demand of the students. With the belief of successful cracking of the exams and getting into the post-graduation courses, students prefer to study in IMA KSB facility. With opening of the additional facility and improving the existing facilities, students are very happy and thankful to IMA KSB. This is one of the important works done during our tenures. Sincerely acknowledging and thanking the building committee for the good works.

Canteen facility: a long pending demand of the students and need at the IMA House was fulfilled with starting of the canteen in 2023. The canteen is running very well. This is significantly helping the students preparing for their exams.

BANGALORE DECLARATION: A historic collaboration meeting between IMA and Patient safety and access initiative India foundation (PSAIIF) was held at Bangalore on 29 & 30 June 2024. Experts in the field of patient safety and their concerns, including patient representatives and the experts on the issue from PSAIIF and IMA representatives including IMA national President participated. The topics were discussed under three broad headings; Universal health care, confidentiality and patient data security and Health insurance. After detailed deliberations, the core committee of the consultative meet drafted the consensus declaration and discussed again and fine-tuned and finalized THE BANGALORE DECLARATION! This is a major initiative and step forward in the right direction in building better doctor patient relationship; improve public perception and understanding of the commitment of the doctors to them. IMA-KSB took full responsibility and hosted the meeting. This is one of the major during our tenure.

GST was one of the major issue and a huge financial burden. When the GST sleuths descended to the KSB office and insisted on payment of crores of money immediately, it was a huge challenge. IMA KSB had to explain everything on behalf of all the branches. IMA KSB managed it smoothly and efficiently. The learned senior members made enough research, consulted the tax and legal experts, negotiated with the officials and finally decided to pay with protest. To protect honor, respect and the tax scrutiny of all the branches and the members, It took the onus of payment on itself and whole GST amount was paid. IMA KSB is one of the very few branches in the country who has paid its GST and has been well appreciated by the headquarters. Sincere thanks to all the seniors and special thanks to Dr. Yogananda Reddy, who painstaking studied on the issue, consulted experts, negotiated and settled the issue. As IMA KSB has paid it on behalf of all the members, it was decided to collect contribution from all the members. The process is on.

Branch for joining hands for the welfare of the association. IMA KSB has done a great service to itself by being accommodative to the needs and necessities of the headquarters.

We encouraged the JDN and MSN during our tenure. The students and the junior doctors were involved in learning and skill building activities and

they were given assurances of full support and encouragement. We are happy that they made their mark at important junctions on important issues. They proactively participated in the protests, activities and the functions of the state branch. Their participation in the candle light March protest and the protest against Kolkata gang rape and murdering of a postgraduate student is notable. Further strengthening of both of them is necessary for the betterment of the IMA KSB. We need to work on having both MSN and JDN units at all the medical colleges. That will surely improve care of young and budding professionals during their training and early professional period.

The communications and reporting to the IMA headquarters was well taken care of during the last 2 years. We have responded well to most of the directions of the headquarters and carried out the national activities across the state. IMA headquarters was happy with our works. Adjudging both the IMA KSB President and the State Secretary as the best President and the Best state secretary in the same year in 2023 is a testimony for the wonderful works done at the state branch.

The relationship and the cooperation with the IMA headquarters and the national leadership improved significantly in the last few years. IMA KSB is one of the most reliable and trustworthy partners of the headquarters and they look forward to the state for its inputs and contributions.

IMA KSB has become stronger with strengthening of the democratic processes. It has earned the reputation as the one of the best branch in the country. IMA National President has expressed happiness about the state branch and its leadership. This has also improved the value quotient of IMA KSB at the headquarters.

With this, I believe, IMA KSB is on the right path. Has the potential to grow bigger and better for the benefits of the members and can play a significant role in the national level too. Surely, there is long due for major posts at the headquarters. Hope the state branch keeps the momentum and explore the opportunities and provide leadership at national level.

The more you practice the art of thankfulness, the more you have to be thankful for!

I am grateful for the opportunity given to serve the association. The experience has been invaluable, and I'm proud of the work we've accomplished as a united team. I learned a lot from my team members and thankful for the support and camaraderie we have shared.

I express my sincere thanks to all the office bearers, SWC & CWC members, council members and divisional coordinators. I express my sincere thanks to all the sub subcommittees for great work and cooperation. I express my sincere thanks to all the office staff of IMA KSB for their works, cooperation and guidance.

I acknowledge and appreciate the diligent efforts and work done by the Honorary Treasurer Dr. Vijayasarahi. He has ensured that the state branch finances and financial handling is smooth, transparent and accountable. He shouldered the responsibility of GST payment smoothly. He has ensured safe keeping of the resources of various accounts and updated the details regularly. His hard work under the guidance of the seniors has saved significant amount of resources to the state branch. Kudos to him for the great work and bringing much needed responsibility for the post. I express sincere thanks to Dr. Anitha, D, the honorable joint secretary for the valuable support.

I express sincere thanks to the local branches and their team for the years 2022-24 for excellent works and cooperation with the state branch. We cherish working together. It's the local branches works that brought appreciation and awards for the state branch.

I am thankful and have the satisfaction of doing my bit of work to the association. Looking forward to work and contribute for the welfare of the association in the future too. I congratulate the incoming team of Dr. Chiniwalar and Dr. Suriraju and wish them best of luck and extend full support and the cooperation. I am signing off with good memories, lessons learned, the skills acquired and the good memories. Will reflect on my work and do research on improving them further and bring in more positive, constructive and meaningful outcomes in the future.
